

Representative Project – Green Seal Environmental, Inc.!

Project Name: Former Naval Ammunitions Depot - Formerly Used Defense Site (FUDS)

Location: Fort Hill Street, Hingham, Massachusetts

Client: Town of Hingham, Town Administrator Charles Cristello (781) 741-1400

Dates: July 2007- Present

Estimated Construction Cost: \$16 million

Estimated Fee: \$80,000

Summary:

GSE was retained by the Town of Hingham to complete the environmental and Licensed Site Professional services required to assess the multiple releases of hazardous materials at this MassDEP listed property.

The site is a portion of the former Naval Munitions Depot, which was used by the federal government between 1914 and 1950 for the assembly, storage, overhaul, breakdown, and disposition of various kinds of ammunition. The depot is classified as a Formerly Used Defense Site (FUDS).

There are multiple releases of oil and hazardous materials and tracking numbers on this location. Hazardous materials include asbestos, metals and petroleum products. All areas are being remediated to facilitate the construction of new DPW and Athletic Fields Project.

Services provided include the following.

- Preparation of Release Abatement Plans
- Preparation of Phase I Tier Classifications
- Preparation of a Notice of Intent and Wetlands flagging
- Complete a Hazardous Material Survey
- Preparation of the bids and specifications for all asbestos debris in and around former building foundations.

Currently the remedial activities are in progress with closure of all tracking numbers anticipated with MassDEP in 2008.
